Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROOK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.

alone, exceeding by 60,000 bales the largest preylous record for any day. Exports in October were 250,000,000 pounds against 41,000,000 last year, and/of oil 70,000,000 gallons against 50,000,000 bat year the value of both being \$601, 823,503. The output of pig from November 1 was 171,082 tons weekly, an lacrouse of 18,055 tons during the month of October. The production in the last half of 1802 sommslikely to be not far from 4,182,000 tons, and stocks in October have been reduced 77,000 tons, which indicates a consumption larger than n year ago. Deliveries of rails for the year are small, probably not ever 1,250,000 tons; bars are more active owing to the car building, but plates are quiet and now orders for structural work are scace. Coppor is in great demand at 11% cents, in hardening at 20% conts; ind lead weak at 29 conts. It has been the dullest October over known for anthracite coal, and the Reedling finds its terminals crowded through weeking only three days in the week. The bituminous track has been active and increasing. At Fittburgh the Monongalela strike ands with victory for the operators. Business in dry goods has been dull, but prospects are considered bright for the comming season, and some blacebud and colored cottons are trougher. Wool was very active the first part of the week with large stokes and a tendency to advance. Many shee factories will require their full capacity until Christmas to fill their orders, and shipments still largely exceed last years. In epite of storms the movement of live stok at Chicago is larger than a year ago. Stocks declined with some aching on Wodnesday, but were strong on Thursday, and the hardest continues in the hands of the traders. Money has been in better auptly, declining from 6 to 52 per cent. The money markets have not been disturbed, though working seemswhat closer at several important points, and foreign necessities and the searcity of commercial bills have caused some decline in foreign exchange. It is foared that Russian needs and the failure to place the desired lean in Paris may cause further withdrawals of Hussaub abances in eastern Europe.

Trade at Boston has been fairly active for a weak with woolen mills fully employed and the consumption of goods remarkably large. The woolen market had anticipated an advance in price which did not occur, though sales amounted to 4,000,0m pounds. Cottons were firm and the mills are all busy. The boot and shee trade is more quiet, leather steady, but domestic hides more active. At Philadelphia mest trades have been duil, but from is firmer and colder weather brings more domained for boots and shoes. Manutacturers of tobacce are pressed to their full enpacity, the wall-paper trade is large, and trade in chemicals steady. At Baitimore business is good with increasing exports, and southern collections better than was expected. At Pittsburgh the production of iron increases, but shes the demand and the general tone is slightly better than before with large or dera for wrought pig. Class, especially plate, is a large demand. NEW ORLEANS, Nov. 11.-New Orlean once more assumes the semblance of a city. The big strike is over, but there till exists a considerable amount of ill-feeling among the men who were locked out for the past fortnight. This feeling manifested itself among the car drivers to-day. When they applied for world on the various lines they found wanted to return they would have wanted to return they would have to remain on duty for sixteen hours at forty dollars a month. Previous to the strike they received fifty dollars for twelve hours' work. The presidents of the roads are firm in their determina-tion to employ whom they please at what salary they please, and further trouble is expected. Companies—Possibilities.
Chicago, Nov. 12.—Within a few weeks a powerful corporation will be formed by the consolidation of the International Packing and Provision Co. and Mr. Henry Botsford, president of the Chicago Provision Co. will assume the active management of the entire oncern. The amalgamation will be effected by passing the control of the international company to the Chicago company and the consolidated concern will take the name of the latter. Such deal is of the greatest importance in the packing world. The corporation thus formed will not only be stronger but more in-reaching than the com-bined interests of the "Big Four." The united companies will control over \$4,000,000 of reserve (or working) espital in addition to the plants represented by the stocks and bonds. The apitalization of the International, which is an English company, formed-last summer, is £850,000 and that of the

Chicago company £400,000. The two companies have something like \$3,000, 000 in outstanding bonds. To this great financial combination it is possible that another enormous in-terest will be connected. Certain of the stockholders of both the International and Chicago companies favor a great extension of the business, and people connected with the Hammond company admit that there is a possi-bility of that corporation also being taken into the new commation. DECATUR, ILLINOIS. SATURDAY EVENING, NOVEMBER 12, 1892. LANDSLIDES IN POLITICS.

The Present Compared with Former P litical Upheavals in America.

New York, Nov. 12.—The great democratic victory in the election Tuesday is called a landslide by politicians. They don't occur often. There have been only three such events since the foundation of the government. The democratic party is the only political party that has survived a landslide when it was not been deposited in the party side of the when it was on the under side of the slide. When the democrats get tired of rejoicing over the victory won Tues-day, and the republicans get tired of wondering how it happened, they can all find rest and amusement in cor paring it with similar events that tool place fifty-two and forty years ago, re

spectively.
They will find very interesting coin cidences when they come to compare the three great events in American politics. One of the first they will no tice is that Benjamin Harrison's grand fater, William Henry Harrison, was cleeted president in 1840 by a landslide as big as the one which defeated the grandson in 1892. Twelve years later the second great landslide occurred and that one was the beginning of the and that one was the beginning of the end of the whig party which got a crushing defeat in the election of 1852. The republican party is thirty years old this full. The party named candidates for president and vice-president for the first time in 1356. The whig party was just thirty-six years old when it ceased to exist. This is another coincidence which may interest both democrats and republicans just now. The whig party was not in power so long as the republican party is too came than the republican party is too day. Its youthfulness kept it alive eight years, but it was a poor and hopeeight years, but it was a poor and hopeesa sort of existence.

A feature of these political landslides is that the candidates who were on the wrong side of them were never afterward elected to any important office. warn elected to any important office. Martin Van Buren, who was regarded as something of a politician in his day, was on the wrong side of the slide that carried the elder Harrison into the White House. He afterwards became a sort of standing candidate for president, but never got an electoral vote. He was nominated by the free soil party four years later and by the know nothings, or American party, eight years afterwards, but failed to carry a single state either time.

den. Winfield Scott went down under the landslide of 1852 with the whig party.

The political landslides of 1840 and

1852 differed from the one this year in that the successful candidates in those elections got comparatively small ma-jorities of the popular vote, while they had fou fifths of the votes in the electoral college. But the three were alike in that each was the work of the people and not of the politicians. AN INTERESTING POSSIBILITY.

The Newly Discovered Holmes Comet Thought to be Identical With the Lost Bielas.

Boston, Nov. 12.—The Commonwealth says to-day: Advices from the European Union of Astromers hint at the fact that Prof. Berberich, of Berlin, considers the newly elscovered Holmes comet as probably identical with Biclas. This, if substantiated, will be of the greatest interest to astromers. The comet was discovered in 1782 by Montayne its to astromers. The comet was discovered in 1782 by Montayne its periodicity was established by Biela at Josephstadt, Bohemia, in 1824. Its suc-Josephstadt, Bohema, in 1821. The suc-cessive appearances were watched with great interest, but its position in prox-imity to the sun prevented its observa-tions on several of its returns. In 1845 it was seen as a faint nebula and was observed to separate into two portions. On its next return in 1852 the two companions were discernable but widely separated and since that time it has not been seen. In 1872 a stream of

meteors were noted. The possibility that this comet, transformed into a stream of meteors, is once again visible to us as a comet is of exceeding interest and of value as ell, as a step towards the solution of the mystery surrounding these wande ers of the skies."

Please allow me to tell those suffering, about Resid's German Cough and Kidney Onre and what it did for two very sick patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients I was called upon to care is only patients. I was called upon to care is only patients I was called upon to care is only patients. I was called upon to care is only patients I was called upon to care was very high, breathing very difficult, and incessant coughing. I sent to the dring store at once for a bottle of Reid's German Cough and Kidney Cure, giving the bottle thoroughly before using it.

Give regularly for carelessness in this is the trouble with so many. Now before morning this terrible sufferer was dring the patients and five the patients with the remedy, and in a severe case, as effect, as now he commenced to raise and such quantities that in a case of typhond pneumonia as this grutleman was down with the remedy and care got up from their sickness in good condition. I shall be glay to answer all letters of inquiry.

The boy is not an animal, yet they can
be heard to a considerable distance.
When a boy hollers he opens his big
mouth like frogs, but girls hold their
tongue til spoke to, and then they snawer
respectable and tell just how it was. A
boy, thinks himself claver because he can
wade shere it is deep, but God made the

FAIR OPEN SUNDAY.

World's Fair Directors Decisre That the Exposition Should Not Be Closed.

At a meeting of the world's fair diectors held in Chicago yesterday a reso ntion was passed favoring the opening of the world's fair gates on Sundays pro vided the machinery be not run. The directors declare that, as all nations of the earth will be invited, it would highly discourteous and inhospitable to inform then that they can not do on Sunday what they would do at home The closing of the gates on Sunday, say the resolutions, means that thousands of artisans and mechanics to whom the exhibition would be of value, would not be able to attend it. The directors say that hey are in favor of allowing every nation to hold within the grounds such religions services as they may desize.

uccess, "Jane," will occupy the boards t the Grand Thursday evening, Novem er 17. The company presenting "Jane" s one of great merit, as the name of Frohman would suggest. Mr. Frohman has an enviable reputation for handling only the most legitimate attractions, and "Jane" is no exception to this rule. Adapted from the French, Jane possesses all the elements of bright, sparking wit and refined humor always found in those successes produced in the gay capital of the sister republic, and June has the advantage over the original in that there is no risque situations or anything in the way of double entendres.

Here's What the Plasterers Think of ROCK PLASTER.

WE THE UNDERSIGNED, contracting plasterers, after much experience and observation, take pleasure in testifying to the practical character of ROCK PLASTER, and while it will remove a not inconsiderable amount of business, namely that of patching, we advocate its use, as it enables us to do work and guarantee the results, and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has and enables us to carry on our trade at all seasons of the year, and modernizes that part of building enterprise which has undergone practically no improvement in the last two thousand years, placing the business of the plasterer on the same footing as that occupied by the other trades through the advent of machinery and improved methods.

A CANADIAN INVESTIGATION

New York, Nov. 12.—R. G. Dun & Co.'s weekly review of trade says:

The presidential election has interrupted business to some extent in all parts of the constry during the past week. but by no means as much as usual, and at nearly all points the volume of trade has been fairly multitationed and the unprecedented activity of industrice has only been interrupted by the election beliday. A severe storm throughout most of the northern istates has embarrassed the moreometric products and has checked some trades, but was very welcome to dealers in winter goods whe had found the unusually mild weather somewhat depressing to their business. Distribution of other products has been fully up to the average and reports reparted in the content of the products have not been disturbed, though working somewhat closer at several important points, and foreign necessities and the carcity of contentrial bills have caused some decline in foreign exchange. VICTORIA, B. C., Nov. 12.—The government steamer Quadra, with Maj.
Sherwood, captain of the Dominion of markots have not been disturbed, though working somewhat clear at several important points, and foreign necessities and the scarcity of commercial bills have caused some deciline to foreign exchange. It is feared that Russian moeds and the failure to place the desired lean in Paris may cause further withdrawals of Russian balances in eastern Europe.

Trada at Boston has been tairly active for a week with woolen mills fully employed and the consumption of goods romarkably large. The woolen market had anticipated an advance in price which did not cenur, though sales amounted to 4,000,00 pounds. Cottons were firm and the mills are all busy. The boot and aboo trade is more quiet, leather stondy hat demests bides more active. At Philadelphin most trades have been dull, but fronts firmer and collor weather brings more demand to result of their full capacity, the wall-paper trade is large, and trade in chomical sleady. At Haitfance business is good with increasing exports, and southern collections better than was expected. At Pitteburgh the production of iron increases, but also the domand and the general tone is slightly better than before with large or dors for wrought pig. Glass, especially plate, is in large dumand. Trade at Clivation is good, the demand for manufactured fron exceeding the capacity of the mills, and money is working closer. Business at Detroit is very favorable, trade and artifuse is excellent active in rate and in drugs is excellent, exceeding in real estate show an increase of 30 per cent, over last year, and the demand for manufactured exceeding the capacity of the mills, and money is working closer. The output of pig iron Novomber 1; was 171,682 tons weakly, an increase of 18,055 tone during the month of October. The production in the last baif of 1862 seems likely to be not far from 4,188,000 tons, and stocks in October have been reduced 77,000 tons, which indicates a consumption larger than a year ago. Deliveries of rails for the year are small, probably not over 1,200,000 tons; bars are more active coing to the car building, but plates are quiet and now orders for structural work are scarce. Copper is in great demand at 11% cents, ith hardening at 20% conts; and lead weak at 3.6 cents. It has been the dullest October ever known for anthractic coal, and the Reeding flushs its terminals crowded through working only three days in the week. The bituminous trade has been active and lear escarce, At Pitthurgh the Monorgahela strike and swith electory for the operators. Business in dry goods has been dull, but prospects are considered bright for the coming seasen, and some bleached and colored actions are atronger. Wool was very active the first part of the week with large selles and a tendency to adonce more assumes the semblance of a city. The big strike is over, but there still exists a considerable amount of ill-feeling among the men who were looked out for the past fortnight. This feeling manifested itself among the ear drivers to-day. When they applied for work on the various lines they found their places filled by nonunion men, and they were informed that it they wanted to return they would have to remain on duty for sixteen hours at forty dollars a month. Previous to the strike they received fifty dollars for twelve hours' work. The presidents of the roads are firm in their determination to employ whom they please at Il-feeling among the men who were some bleached and colored cottons are atrong or. A GIGANTIC ORGANIZATION Formed by the Consolidation of Existing

Companies-Possibilities. CHICAGO, Nov. 12.—Within a few weeks a powerful corporation will be formed by the consolidation of the International Packing and Provision Co. and Mr. Henry Botsford, president of the Chicago Provision Co. will assume the active management of the entire concern. The amalgamation will be effected by passing the control of the international commune to the Chicago international company to the Chicago company and the consolidated concern will take the name of the latter. Such

will take the name of the latter. Such a deal is of the greatest importance in the packing world. The corporation thus formed will not only be stronger but more far-reaching than the combined interests of the "Big Four."

The united companies will control over \$4,000,000 of reserve (or working) capital in addition to the plants represented by the stocks and bonds. The capitalization of the International, which is an English company, formed, last summer, is \$50,000 and that of the last summer, is £850,000 and that of the Chicago company £400,000. The two companies have something like \$2,000,

000 in outstanding bonds. To this great financial combination it is possible that another enormous interest will be connected. Certain of the stockholders of both the Interna-tional and Chicago companies favor a great extension of the business, and great extension of the business, and people connected with the Hammond company admit that there is a possibility of that corporation also being taken into the new commaction. This concern has a capitalization of \$1,240,

Moreover it is intimated that still other companies will be drawn into the consolidation, and that the plans of the leaders in the amalgamation mean the formation of one of the most powerful

The Cost of the Consular Service.
WASHINGTON, Nov. 12.—Ernest Timm, fifth auditor of the treasury, in his anual report states that the exces of a penditures over receipts in the consular service was \$157,545, due mainly to a falling off in consular fees. A falling off in the invoice fees has been going on since 1890. As compared with the collections for the fiscal year 1890 there is a diminution in the amount for this year of \$89,421.75, indicating a less number of invoices of foreign goods brought into the United States in 1802 than in 1890 by 85,765 invoices.

LANDSLIDES IN POLITICS. The Present Compared with Former P litical Upheavals in America.

New York, Nov. 12.—The great demneratic victory in the election Tuesday is called a landslide by politicians. They don't occur often. There have been only three such events since the foundation of the government. The democratic party is the only political party that has survived a landslidwhen it was on the under side of the slide. When the democrats get tired of rejoicing over the victory won Tuesday, and the republicans get tired of wondering how it happened, they can all find rest and amusement in com-paring it with similar events that took place fifty-two and forty years ago, re-

spectively.

They will find very interesting coincidences when they come to compare the three great events in American politics. One of the first they will no tice is that Benjamin Harrison's grand fater, William Henry Harrison, was cleeted president in 1840 by a landslide as big as the one which defeated the grandson in 1892. Twelve years later the second great landslide occurred and that one was the beginning of the end of the whit party which got a crushing defeat in the election of 1859. The republican party is thirty years old this full. The party named candi-dates for president and vice-president for the first time in 1856. The whigh party was just thirty-six years old when it ceased to exist. This is another coincidence which may interest both democrats and republicans just now. The whig party was not in power so long as the republican party has been, but it died hard. It surports the land like of 1875 in interest. vived the landslide of 1852, eight years, but it was younger when the slide came than the republican party is to-day. Its youthfulness kept it alive eight years, but it was a poor and hopeless sort of existence.

A feature of these political landslides

is that the candidates who were on the wrong side of them were never afterward elected to any important office. Martin Van Buren, who was regarded as something of a politician in his day, was on the wrong side of the slide that carried the elder Harrison into the White Honse. He afterwards became a sort of standing candidate for president, but never got an electoral vote. He was nominated by the free soil party four years later and by the know nothings, or American party, eight years afterwards, but failed to carry a single state of the stime. single state either time.

den. Winfield Scott went down under the landslide of 1852 with the whig

The political landslides of 1340 and 1852 differed from the one this year in that the successful candidates in those elections got comparatively small majorities of the popular vote, while they had four fifths of the votes in the electoral college. But the three were alike in that each was the work of the people and not of the politicians. AN INTERESTING POSSIBILITY.

The Newly Discovered Holmes Comet Thought to be Identical With the Logt Bielas.

Boston, Nov. 12.—The Common-wealth says to-day: Advices from the European Union of Astromers hint at the fact that Prof. Berberich, of Berlin, considers the newly discovered.

Holmes comet as probably identical with Biclas. This, if substantiated, will be of the greatest interest to astromers. The comet was discovered in 1782 by Montayne its periodicity was established by Bicla at Leonbergh Roberts in 1882. Josephstadt, Bohemia, in 1826. Its suc-cessive appearances were watched with great interest, but its position in prox-imity to the sun prevented its observa-tions on several of its returns. In 1846 it was seen as a faint nebula and was observed to separate into two portions.
On its next return in 1852 the two companions were discernable but widely separated and since that time it has not been seen. In 1873 a stream of meteors were noted.

The possibility that this comet, transformed into a stream of meteors; is once again visible to us as a comet is of exceeding interest and of value as well, as a step towards the solution of the mystery surrounding these wander ers of the skies."

TOPEKA, Kan., Nov. 12.—The repub licans claim that changes in the re leave the result of the election still in doubt, and are: hoping that the apparent majority of the populists will be entirely overcome when the official returns are all in. It is probable that the fusion electoral and state tickets have carried the state by from 1,200 to 2,000. However, there are between fifteen and twenty counties from which no returns have yet been received, and it is barely possible that part of the republican ticket will be shown to hav mujority.

Must Call an Extra Seggion WASHINGTON, Nov. 12.—"I don't see how the democrats can avoid an extra session of the fifty-third congress. said Senator Sherman, of Ohio, yester-day, "unless they desire to provoke a charge of timulity. The preparation of a revised tariff ought to be commenced by them as soon as they are in power, if they propose to redeem their pledges, and besides," added the senator, laugh-ingly, "if they postpone their work for thirteen months they may not be able o agree."

WORLD'S FAIR RATES

A Matter of Interest to Prospective Visitors

TO THE GREAT COLUMBIAN EXPOSITION

The Return Trip Rates and Conditions as Prectically Agreed Upon by the Passenger Agents of the Western Lines.

Chicago, Nov. 12.—Western lines have practically agreed on World's fair rates and methods of handling passengers. The plan as formulated is based on the meeting of the western beautiful agreed on a reduction in passengers. The plan as formulated is based on the meeting of the western lines which agreed on a reduction in round trip rates not greater than 35 per cent. of present rates. The matter is now in the hands of a committee of seven general passenger agents.

The proposed plan of western lines is in the main as follows: Round trip excursion rates may be sold to Chicago and return each day commencing April 25, 1893, inclusive, good going within one day of sale and returning for thirty days; Round trip excursion tickets sold after October 5 shall be limited for return passage to November 5. All tickets shall provide for continuous passage in both directions. Agreed rates are to be not less than the following, for the round trip: St. Louis \$12.25, East St. Louis \$11.25, Kansas City \$18.25, Leavenworth \$18.26, Atchison \$18.27, \$2.5, Leavenworth \$18.26, Atchison \$18.27, \$2.5, Council Bluffs, \$19.50, Omain \$20.00, Sioux City \$20.00, St. Paul \$16.00, Minmencolis \$10.00. Sioux City \$20.00, St. Paul \$16.00, Min neapolis \$16.00, Duluth \$10.00, Superior \$19.00. The foregoing rates are based ap-proximately on two cents a mile, short rate shall be the official rate of west-

of a radius of 100 miles from Chicago. From the territory within 100 miles from the territory within 100 miles of Chicago the general basis shall be 2.7 cent per mile in each direction, tickets to be sold every day from April 30 to October 30, every day from April 30 to October 30, 1898, good for return passage within fifteen days. From time to time special excursions from points within 300 miles of Chicago and called "special coach excursions" may be run on which tickets may be sold at a rate of not less than 136 cents a mile.

The Camden Fire.

CAMDEN, Mc., Nov. 12.—As a result of Thursday's fire there is but one greesry store left in town. Ail drug stores, boot and shoe stores, millinery and dry goods stores, the post office and furniture stores, the post office and telegraph office are wiped out.

Twenty families are rendered homeless. The loss is estimated at from

less. The loss is estimated at from \$850,000 to \$500,000, about two-thirds covered by insurance.

Ohio Goos Republican. CLEVELAND, O., Nov. 12.—The Leader has received builetins of official major-ities from all but six counties in Ohio. According to these figures the republican ticket now has over 1,000 plurality, and should have more on conservative estimates of the remaining counties. The election for congressmen in the ninth district is very close, the democratic nominee not liaving more than six majority if elected at all.

Gentlemen:—I am a regular registered nurse of several years practice and experience in Chicago and suburbs, and can give the highest reference as to my standing and respectability as such nurse. Please allow me to tell those suffering, about Reid's German Cough and Kidney Orre and what it did for two very sick patients I was called upon to care for. The first one was a very large, fissily gentleman, whose temperature was very high, breathing very difficult, and inceasant coughing. I sent to the drug store at once for a bottle of Reid's German Cough and Kidney Cure, giving it right to the minute on time, shaking the bottle thoroughly before using it. Give regularly for carelessness in the in the trouble with so many. Now before morning thus terrible sufferer was breathing easily, akin mont cand tover hoken. Do not stop yet. Keep on with the remedy, and in a severe case, as this one was, you will be surprised at the effect, as now he commenced to raise and such quantities that in a case of typhoid pneumonia as this g-utleman was down with you could existen with me case of typhoid pneumonia as this g-utleman was down with you could existen with me case of typhoid and care got up from their sincess here this gast season, and of my other patients who are very slok, but with the remedy and care got up from their sickness in good condition. SATURDAY EVE., NOV. 12, 1892. dence of this fact it is only necessary to

analyze the vote of Macon county. One of the floate last night bore the usetion: "What is the matter with Tamany?" We answer, nothing, se Tammany was not mistaken in 11s notices as to what methods would be most attractive in the Democratic party.

Ir will be noted that Cleveland has delivered no platitudes about civil service reform since he made his surrender to Tammany. This means that civil service eform will have to take care of itself

THE cage of domestic cats labelled "Republican wildcate" and carried in the jollification procession last night, looke 1 ntelligent, and yet not one of the pussies knew that the Democratic National platorm declares: "We recommend that the prohibitory 10 per cent tax on State Bank issues be repealed." But then bere were a great many who manipu lated the cats who were as ignorant of that fact as the cats were,

Ir is true that manufacturers as stready saying that a reduction of the tariff will only force them to reduce the wages of their employes, and we suppose the Democratic party will not allow this to be done. In that case nothing will be left the manufacturer but to close out his business, and then we will employ the privilege of buying from sbroad the goods he formerly made. This will leave his former employes idle, but they will have the supreme satisfaction of knowing he was forced out of business.

Deno't Trifie with the People.

Already we begin to see evidences of cewardice cropping cut among Democratic leaders. Some are beginning to say that they will eliminate the protections where it manufactures \$7,000, capt the triff and the protection of components to be their condition will be bettered. The Republicans have honestly believed that protection would, and later on that it did, create a demand for American labor, by building up manufactories in this country that employed labor. They include the country that employed labor. They are the triff and roty color, it is pure and old and hate that fruity taste that no other wine began, in point of manufactures, to a position where it manufactures, to a position where it manufactures \$7,000, capt that they will eliminate the protection. If they do not manufactures to the triff at the triff at the triff at the triff at the protection of the market."

Port Wine, ec called of Royal Ruby' Port Wine, ec called for its royal taste and ruby color, it is pure and old and hate that fruity taste that no other wine has Druggists sometimes urge that which they have in bulk; why? More country that employed labor. They are the protection of the protection of the protection of the protection would, and later on that it does not the protection would, and later on that it does not the protection would, and later on that it do not the protection would, and later on that it does not the protection would, and later on that it does not the protection would, and later on that it do not the protection would, and later on that i

say that they "will eliminate the protec tive feature of the tariff stap by step through a series of years." There is not a single excuse, when viewed from the standpoint of the claim made by the Democratic platform, and by the party policy and that the way to benefit labor in the campaign, for any move to spread is to repeal all protective tariff laws, and the repeal of the McKinley law over a for that reason have authorized the Dem eries of years, The Democratic party as declared, and evidently succeeded in making the people believe, that protection is legalized robbery, which robs the nasses to enrich the manufacturer. If this is true what reason can there be for their lease of power will be limited. continuing this robbery a day longer than the day the Democratic party, "the triend of the people," comes into power Any other course on its part will be principle for our people and that its repeal is against the interests of the people, and that the Democratic leaders fear the result and propose to escape the consequences of a repeal of a just policy by doing it by piecemeal, so that the injury to our interests may not be so

The people have a right, as they have put the Democrats in power, to expect prompt relief from these burdens and ought not be asked to submit to have this relief brought on so gradually that they will not be able to discover the benefits.

An open enemy commands the respect f an intelligent autagoniet, but a sneak dangerous, and should be condemned by all right minded men. The Herald Despatch is of the latter order. Its instincts are Democratic yet it assumes to be politically independent, for the purpose of deceiving Republicans and getting their good dollars, It, however, never loses an opportunity to stab the party in the dark. In 1890 it sought to ojure the Republican party by attacking and lying about the new tariff law even going so far as to promise to keep its enders posted about the advance in vices on account of the new tariff law; but when the effects of the new law reved to be a reduction in the prices of manufactured goods instead rise this political guerilla did not have the honesty to admit its error. During the present campaign it did not suit its purpose, to express un opinion as to the issues in the campaign, but, as soon as it found the Republicans defeated it began an assault on the principles of the party, raising its old Democratic howl against protection. This morning it has the impudence to say that Cleveland is the same kind of a protectionist that Grant and Arthur were. It either does not know better or is too dishonest to liscuss party principle. Grant and Arthur were the same kind of protectionists that Lincoln and Webster and Clay were and every Republican statesmen of

The fact that protection has caused the defeat of the Republican party does not argue that protectionists who admit it mean to abandon the principle. The H.-D. probably can be credited with knowing that much, but it cannot withstand the opportunity it thinks it sees to injure the Republican party in a time of adver sity, and so it opens fire on the Republi can party when it thinks the party in a position where it cannot defend itself.

Taubeneck's Mistake. Chairman Taubeneck of the national campaign committee, of the People's party, save the result of 'Inceday's election may be accounted for in the spirit of unrest among the people. This no doubt, is true; but, continuing the same gentleman says those who brought about

the change did so because they discov ered that the tariff is a tax; but they have simply jumped from one fire into another. He makes this latter state ment on the assumption that the Democrats will not remove the tariff. Gun Shoot.

At the regular shoot of the Decatus Inn club these scores were made, Post 20: Peake, 16: F. Mueller, 15; Ennis, 5. A Girl's Composition on Boys.

At a recent board echool examination for girls one of the tasks was an essay on boys, and this is one of the compositions just as it was handed in by a girl of 12:
The boy is not an animal, yet they can be heard to a considerable distance. When a boy hollers he opens his big mouth like frogs, but girls hold then tongue til spoke to, and then they snawer respectable and tell just how it was. A boy, thinks himself clever because he can wade shere it is deep, but God made thedry land for every living thing and rested on the seventh day. When the boy grows up he is called a husband, and then he stops wading and stays out at nights, but the grow up girl is a widow and keeps house." just as it was handed in by a girl of 12

ILLINOIS GRAND LODGE.

Odd Fellows Interested in the Meeting Next Week.

Local Odd Fellows are much inter-

ested in the state encompment and grand lodge of Odd Fellows which meet st Springfield next week. The grand mpment will meet on the 15th at 9 ., m. The grand lodge will meet at 7 p The meeting is of much importance to Springfield as well as to the Odd Fellows of the state. It brings together about 3,000 representative Odd Felfows rom all parts of the state. One important matter to be considered will be he holding of the grand lodge in Chiago next year. For reasons well known to the fraternity, the office of grand secretary may be removed from Blooming-ton. Springfield will ask for it and so also will Peoria. The office of grand coretary is of considerable importance to the city in which it is located, espec ially to the postoffice. The office is in ommunication with every town and village in the state. All the blanks and printed matter in use by the lodges in the state are distributed through the grand secretary's office. It demands the service of the secretary and an assistant. All the printing for the grand lodge is contracted by the secretary, and usually cose to the town where the secretary as posted. A grand secretary is usually elected again and again. The salary is \$2,250. Decator will present a candidate for this office in the person of John Irwin. The peculiarity about it is that the man does not aspire to it himself, but

Wabash Raiiway Surgeons. The surgeons employed on the line of the great Wabash railway system, at their meeting at Danville this week, lected the following officers:

President-Dr. Campbell, cf. Lafay ette, Ind.
Vice President—Dr. Beasley, of Lafayette, Ind.
Secretary and Tressurer—Dr. Steman, of Ft. Wayne, Ind.
It was decided to hold the next annual

meeting at Moberly, Mo., the date to be decided upon by the officers.

The papers read were thoroughly disonssed. Dr. Dewey, of Pern, read an original and very humorous composition on 'Railway Spine," which evoked much applance and laughter. This seconation is the oldest of its sind in the world. Among the physicians present were Dr. McCannse, physician to Beaumont Rospital, St. Louis; Dr. French, in Barnes' Medical College, St. Louis; Dr. Lewis Professor of Austomy in Union Medical College, Kansas City; Dr. Hal C. Weiner Professor of Surgery in Detrois Medical College, and Dr. C. B. Steman, Professor of Surgery in Ft. Wayne College of Chief Burgeon Morehouse entertained his gnests in a royal manner.

Places Democrats Want. In the tear fature Republicans will earn of a lively scramble among the Deestur Democrate for federal appointnents, and they will not let up until every "rascal" is turned out. They will break into the past office, possibly with S. S. Jack to root out Comrade Hubbard, and then Deputy Sicole, the mai carriers and the mail messanger to the depot will have to go. Several some-bodies will want Joe McClellan's place must weit for his friends to bring him out. They do all the work in his behalf. se deputy internal revenue collector; the The Decatur workers will be at Springstamp clerk job held by Park Hammer and clerkship held by W. H. Bornes U.S. Consul at Chemitz, Ger. He, too will have to go, all because Lilinois has gone Democratic. Will the local Demmies be able to agree among themselves as to who will get the plums?.

In "Limited Mail" at the Grand nex Tuesday night Nov. 15tb. Broke a Window

During the Democratic yowling last night in some manner unknown one of the plate glass windows at the Fair store in the Busher building on East Main street, was broken. It is probable that some enthusisatic chap sither accident ally or purposely gave the glass a kick. It looks as if a rock had been thrown against the glass, but there was no rook in sight this morning. It is simply one of the results of the hilarious jamboree.

FAIR OPEN SUNDAY.

World's Fair Directors Declare That the Exposition Should Not Be Closed.

At a meeting of the world's fair directors held in Chicago yesterday a reso-lution was passed favoring the opening of the world's fair gates on Sundays pro vided the machinery be not run. The directors declare that, as all nations of the earth will be invited, it would be highly discourteous and inhospitable to inform them that they can not do on Sunday what they would do at home. The closing of the gates on Sunday, say the resolutions, means that thousands of artisans and mechanics to whom the exhibition would be of value, would not be able to attend it. The directors say that they are in favor of allowing every nation to hold within the grounds such religious services as they may desire.

"Jane." "Jane, oh Jane, my pretty Jane,
'Lis easily seen how fame you gain.
With rosy cheeks, a winning way.
They flock to see you in your play.
While on the stage within their sight You are the cause of their delight.
All will praise and none complain
At mirth-provoking, winsome Jane."
Charles Frohman's brilliant comedy

icces, "Jane," will occupy the boards at the Grand Thursday evening, Novemher 17. The company presenting "Jane" is one of great merit, as the name of Frohman would suggest. Mr. Frohman has an enviable reputation for handling only the most legitimate attractions, and "Jane" is no exception to this rule. Adapted from the French, Jane possesses all the elements of bright, aparking wit and refined humor always found in those successes produced in the gay capital of the sister republic, and Jane has the advantage over the original in that there is no risque situations or anything in the way of double entendres.

A Statement. Last Tuesday morning two of the directors of Charter Oak district, six miles southwest of Macon, wrongfully netition had been circulated charging me with negligence and being partial with the children. There has been a bitter feeling existing in the neighbor hood for the past two years regarding the new school-house. The district is composed of a portion of Christian Shelby and Macon countier, and a question has sprung in regard to the legality of some of the voters. Without investi gating the matter and by listening to the survive him. The fureral was held this stories of their children a charge has een made resulting as above stated.
